PGT® Residential Vinyl Windows & Doors Warranty

PGT Industries, Inc. ("PGT") warrants to the original residential homeowner that any PGT manufactured window or door shall be free of material defects in manufacturing and/or materials for the period specified below. This warranty applies to the window/door under normal use and service, subject to the conditions and limitations herein listed, and for only so long as the original owner owns and resides in the home where the windows and doors are installed. **PGT'S LIABILITY UNDER THIS WARRANTY SHALL BE LIMITED TO THE REPAIR OR REPLACEMENT OF NONCONFORMING GOODS OR PARTS, AT PGT'S OPTION. PGT SHALL NOT BE RESPONSIBLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES THAT MAY ARISE OUT OF A CLAIM FOR BREACH OF THIS WARRANTY.**

This warranty covers only those manufacturing and material defects as specified herein and does not include defects or damages attributable to improper installation and or application of product, use or maintenance; normal weathering; highly corrosive environments; defects or damages caused by accident, fire, flood, acts of God, multiple hurricanes, water intrusion caused by wind-driven rain due to high wind events, vandalism, riot or civil disorder, building settlement or structural failures of walls or foundations; stresses resulting from localized heat which causes excessive temperature differentials over glass surface edges, or occurrences beyond PGT's control.

This warranty shall be null and void if harmful solvents are used to clean the frame and/or sash members, or if the frame and/or sash members are painted or coated in any way, or if any other "aftermarket" products are applied to the PGT product such as window films.

Caulking is used on some installations to seal the frames (or trim package) against water or air penetration. Caulking is not considered a part of the PGT product and therefore, is not covered under this warranty. Caulking is normally considered a maintenance responsibility of the owner.

PGT'S SOLE RESPONSIBILITY UNDER THIS WARRANTY IS LIMITED TO REPAIRING OR REPLACING (COLOR MAY VARY DUE TO AGE, WEATHERING OR DIE LOT DIFFERENCES), FREE OF CHARGE OR AT A PRORATED PRICE PER GUIDELINES OF THIS INSTRUMENT, ANY PART OR PARTS OF THE WINDOWS AND DOORS THAT DO NOT COMPLY WITH THE TERMS OF THIS WARRANTY. THE ORIGINAL WARRANTY PERIOD SHALL NOT BE EXTENDED BY SUCH REPAIR OR REPLACEMENT.

PGT reserves the right to discontinue or change the design and specification of any product it manufactures. Should the component of the window/door originally installed not be available, PGT shall have the right to substitute such part determined by PGT to be of equal quality and performance.

THIS WARRANTY COVERS ONLY THOSE PGT PRODUCTS INSTALLED IN OWNER-OCCUPIED RESIDENTIAL HOMES SPECIFICALLY LISTED BELOW:

IMPORTANT COVERAGE INFORMATION:

Frame

The vinyl components of the frame/sash members are warranted against defects resulting from blistering, chipping, cracking, peeling, corroding or pitting. Colored or laminated exterior and interior finishes are warranted against peeling, blistering or excessive color changes for a period of 10 years. Warranty is null and void if damage is caused by harmful cleaners, or other chemical, or environmental factors.

Hardware, Moving Parts and Screens

Normal wear and tear and naturally occurring changes such as tarnish, corrosion or discoloration of hardware finishes are not considered defects under this warranty.

Glass

Glass has prevalent characteristics such as bubbles, discolorations, blurs and scratches. These are expected, as they are inherent qualities that meet or exceed standard specifications for flat glass ASTM C 1036, heat treated flat glass ASTM C 1048 and laminated architectural flat glass ASTM C 1172. Heat strengthened or tempered glass may have distortions as an inherent quality. Glass with special coatings may require special cleaning, please see PGT's "Getting the Most Out of Your Windows and Doors" for this and additional care and maintenance information.

Insulating Glass Unit

The sealed glass component is warranted to be free of defects resulting in material obstruction of vision or film formation caused by dust or moisture in the dead air space of a sealed unit after the date of delivery by PGT. Should the glass fail after year twenty-five as a result of defects described above, PGT will charge original owner, and the original owner shall pay PGT, a fixed price for glass at that time, according to the formula above. In the event of glass failure, PGT will ship a replacement panel to the original homeowner at no cost (**installation costs are not covered**).

Laminated Glass Unit

The glass is warranted to be free of defects resulting in material obstruction of vision or delamination from the date of delivery by PGT.

Stress Cracks

Stress cracks in glass panels can result from natural settlement or extreme thermal changes between inside and outside temperatures. Stress cracks are not the result of defects in materials and/or workmanship. In the event of a stress crack during the warranty period above, PGT will ship a replacement panel to the original owner at no cost (**installation costs are not covered**).
